BROADCASTING STATIONS

October 13, 1933.

ATTENTION BROADCASTING STATION MANAGER

Dear Sir:

Some misinformation has been published concerning the connection of the National Committee on Education by Radio with the North and Central American Radio Conference held recently in Mexico City.

The following original documents will give you the real facts in the case:

1. "Conference Increases International Difficulties", by our Counsel, who was in Mexico City during the Conference. We are sending you the September 28, 1933 issue of Education by Radio in which this was the leading article.
2. Supplementary report by our Counsel concerning his activities before and during the Conference. (A mimeographed report.)
3. "Financial Aspects of Radio Broadcasting", a mimeographed report compiled from information published both in Education by Radio and in the Congressional Record and filed with the Federal Radio Commission and other Governmental agencies in 1932. This report was distributed on July 27th to the Governmental delegations in Mexico City whose members had not had an opportunity to see it in 1932.

The National Committee on Education by Radio, in accordance with its desire to increase educational broadcasting and raise radio standards generally, is glad to make those reports available to you. Your comments will be appreciated.

Cordially yours,

Tracy F. Tyler, Secretary
and Research Director.
